Diecast Masters offers two 1:50 scale Cat® 150 motor grader models in its High Line Series: LVR and JOY.

The Cat® 150 is designed for road maintenance, grading, and leveling. The LVR model features traditional levers to control the blade and other machine functions. The JOY model uses two ergonomic joysticks on the operator's armrests, bringing controls such as steering and blade movement within easy reach. Both versions represent different operator control systems, allowing buyers to choose the model that best suits their preferences and needs.
